

Charles D. Vollmer, “Chuck”

Mr. Vollmer is the author and founder of Jobenomics. *Jobenomics*, the book, deals with the economics of business, job, wealth, and tax revenue creation. Jobenomics, the national grassroots movement, has a goal of creating 20 million new US private sector jobs by 2020 (*20 by 20*). Jobenomics currently has a following of several million people. Jobenomics' Proof-of-Concept Projects & Initiatives are highly scalable business creation efforts that can generate tens of thousands of new small, emerging and self-employed US businesses. Jobenomics projects and initiatives involve: women-owned businesses, electronic-waste recycling, community-based business generators, energy and green jobs, cloud computing, direct-care, business ministries, real estate owned properties, mining, direct sales, and foreign-owned US businesses and investment. Mr. Vollmer is the CEO of eCycling USA, which was created by Jobenomics to recycle electronic waste and dedicate a percentage of the profits to inner-city business generation efforts, and co-founder of the Jobenomics Harlem project that will create 1,000 new businesses per year in Harlem, NY. He is also a principal at MetroCore, a startup developing a next-generation internet and financial services platform.

In 1996, Mr. Vollmer founded VII Inc., a strategic planning, systems engineering and investment capital firm specializing in government and business initiatives. VII's clients include major domestic and international government agencies and corporations. VII specializes in security (national, homeland, cyber and economic), investment capital, information technology, energy, and international business. VII Capital Partners specializes in business planning and financing emerging businesses. Mr. Vollmer is the founder of VII Enterprise Solutions (VES). VES designed, implemented and maintains the data network for all the US Passport Agencies. Mr. Vollmer is on numerous boards including the Combat Soldier's Recovery Fund that provides financial aid to wounded veterans, several national business networks, as well as small defense, mining and direct-sales businesses.

From 1991 to 1996, Mr. Vollmer was a Partner at Booz Allen & Hamilton. He organized and managed one of the largest US consortiums involved with industry privatization in the former Soviet Union. These consortiums accomplished the largest privatization effort in history converting over 70% of state-owned industries to private enterprises. He was a co-founder of the Community Learning and Information Network a distance-learning corporation that has installed several hundred sites across America. He was instrumental in establishing the National Automotive Center in Warren, Michigan.

From 1985 to 1991, he founded and was the Vice President/General Manager for General Dynamics' new business and high-technology organization, called the Defense Initiatives Organization (DIO). In this capacity, he founded a dozen new organizations including a Nuclear Biological Chemical Reconnaissance System that was used extensively in Operation Desert Storm, a Strategic Defense Initiative (Star Wars) Division, and a Diamond Film Development Company involved in growing synthetic diamond substrate material for electronic systems. Within three years, the DIO captured over a quarter of a billion dollars of contract awards. Prior to this, Mr. Vollmer was the Director of Strategic Planning and Operations Analysis when General Dynamics was a *Fortune 50* company and the world's second largest aerospace corporation.

From 1979 to 1985, he was a senior engineer at McDonnell Douglas and was on the initial design teams of F-15E and Stealth aircraft. As marketing director, he was largely responsible for the \$32 billion sale of the F-15E to the USAF.

Mr. Vollmer served 10 years active duty in the USAF and 13 years with the Air National Guard. He accumulated over 3,000 hours in various fighter aircraft, flew 175 combat missions in Southeast Asia, and received six Distinguished Flying Crosses and eleven Air Medals. Mr. Vollmer received a B.S. degree in Engineering Management from the USAF Academy in 1969, a Masters Degree in Education from Northern Arizona University in 1976, and attended Massachusetts Institute of Technology's Sloan School for Senior Executives in 1987. He is married to his high school sweetheart, Trish Eagan, from Lewisburg, Pennsylvania. Their son is the President of VII Enterprise Solutions.
